EGGS AND DAY-OLD CHICKS

- for breeding and incubation purposes (chickens, ducklings, etc.)

CLIENTS FEEDBACK

«Moscow Zoo» thanks Moscow Cargo airfreight terminal for the impeccable handling of the Amur tiger

Dear Colleagues, we would like to thank you for a successful transportation of the Amur tiger. Transporting a wild animal by air is a complex, responsible and important challenge that we could entrust only to Moscow Cargo high-level professionals who have a rich experience of handling AVI.

Puma Park LLC Treatment and Rehabilitation Center expresses its gratitude to Moscow Cargo employees for the careful attendance of an Eurasian lynx

The Puma Park Treatment and Rehabilitation Center thanks Moscow Cargo team for careful and expedite attendance of a rare male Eurasian lynx. The animal was provided with the most comfortable conditions.

Moscow State Zoological Park finds cooperation with Moscow Cargo very productive

Moscow State Zoological Park finds cooperation with Moscow Cargo fruitful. Thanks for well coordinated work we successfully delivered a rare animal – the Far Eastern leopard in good condition (flight FV6282/02.16).

Sverdlovsky Breeding Poultry Factory thanks for the delicate handling of chickens

Sverdlovsky Breeding Poultry Factory sincerely appreciates Moscow Cargo team for the assistance in transportation day-old chickens from Moscow airport (Sheremetyevo) to Yekaterinburg airport (Koltsovo).

AirBridgeCargo, on behalf of the consignor, acknowledges Moscow Cargo for the excellent handling of live animals

Dear Colleagues! The dog was handled perfectly, smoothly and safely, and was placed in a quarantine station. I want to thank everyone very much for help in this difficult delivery and for organizing the whole handling process. We have never transferred a dog to a warehouse so quickly, first-class service and professionalism. We worried so much, but everything went well.

The Nikulin Circus on Tsvetnoy Boulevard values the high level of Moscow Cargo staff's professionalism

The Nikulin Circus on Tsvetnoy Boulevard, represented by Nikulin M., wants to note the perfect animals' handling which arrived at the Moscow Cargo airfreight terminal after the end of the tour from Japan. Thanks for the clear organization of technological processes and staff performance. All animals were ready to be delivered to the circus as soon as possible after their arrival.

VED-Logistic thanks Moscow Cargo for the fast and safe handling of walruses

Good afternoon! The flight arrived on time and 2 hours after actual time of arrival our animals left the terminal. Thanks a lot for your work. We will recommend your terminal.

ZOLLRU company emphasizes prompt work

Dear Colleagues! We would like to thank Moscow Cargo staff for their prompt work and good organization of live animals handling services (AWB 580-2040-4720). Moreover, I want to express my gratitude to AirBridgeCargo Airlines staff who participated in this process together with you. We will definitely recommend our clients to work with your terminal.

IT IS IMPORTANT TO KNOW!

GENERAL IATA REQUIREMENTS FOR ANIMAL CAGES

WE FOCUS ON ANIMALS' SAFETY AND WELFARE

You can always get more detailed information about the requirements for air transportation of animals, as well as the possibility of purchasing a suitable container, in our **Sales Department**:

+7 (495) 730 62 64,
+7 (495) 737 60 60 (ext. 3401, 3402)

bron@moscow-cargo.com

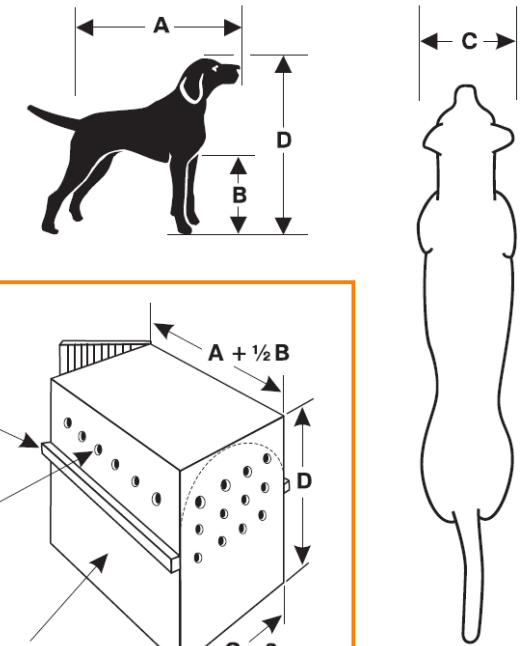

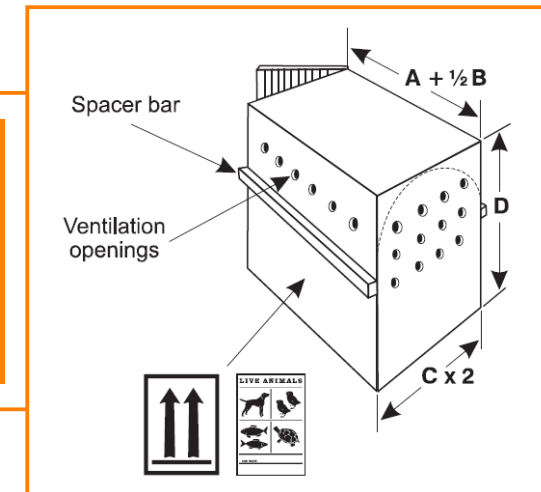

every day 8:00 – 20:00

Sales Department is located in the client area on the 2nd floor of Moscow Cargo terminal (counter №31)

Minimum internal container dimensions:

Length = $A + \frac{1}{2}B$
Width = $C \times 2$
Height = D

General IATA requirements:

- Cage materials – plastic, metal or wood
- The door and fasteners must be constructed from metal (obligatory)
- Door hinges and locking pins must protrude above and below the horizontal edges of the doorway by at least 1.6 cm
- The door must be securely closed, but without combination locks or key locks
- Water container must be present and affixed within the shipping container with an outside access for filling
- The total number of ventilation openings must be at least 16% of the cage total surface

For more IATA information please visit <https://www.iata.org/en/programs/cargo/live-animals/>

- A** – length of animal from the tip of the nose to the tail base/root
- B** – height from ground to elbow joint
- C** – width across shoulders or the widest point (whichever is bigger)
- D** – height of animal in natural standing position from top of the head or the ear tip to the floor (whichever is higher)
